ABOUT ME

MCA student with a strong foundation in Python, HTML, CSS, and JavaScript. Completed a 6-month internship, gaining hands-on experience in web development and user interface design. Developed an AI Speech Calculator as a personal project using speech recognition technology. Passionate about software development, problem-solving, and continuous learning. Seeking opportunities to contribute to innovative projects and build a successful career in the IT industry.

EDUCATION

MEPCO SCHLENK ENGINEERING COLLEGE, SIVAKASI

Master of Computer Applications
CGPA - 7.43
2024 - 2026

N.M.S. SERMATHAI VASAN COLLEGE FOR WOMEN, MADURAI

Bachelor of Computer Applications
PERCENTAGE - 81
2020 - 2023

S.M.S. GIRLS HIGHER SECONDARY SCHOOL, MADURAI

PERCENTAGE - 60.86
2018 - 2020

TECHNICAL SKILLS

- **Programming:** Python, JavaScript(Basics)
- **Frontend:** HTML5, CSS3
- **Tools:** Git, GitHub, VS Code
- **AI/Tools:** Speech Recognition, OCR

SOFT SKILLS

- Adaptability
- Active Listening
- Creativity
- Team Collaboration
- Problem Solving

CERTIFICATES

- NPTEL - IOT
- ACCENTURE - UI Development
- GEEKSTER - GIT & GIT HUB

INTERNSHIP EXPERIENCE

Frontend Developer Intern
V7Lancers Technopark Private Limited
Duration: 6 Months - (2025-26)

- Designed and developed website interfaces for 2 projects using HTML, CSS, and JavaScript.
- Created responsive and user-friendly web pages.
- Participated in UI improvements and frontend updates based on project needs.
- Gained exposure to an AI-based Electronic Document Management System (EDMS) project.
- Collaborated with team members during development activities.

PROJECTS

AI Speech Calculator

- Developed a voice-enabled calculator using Python speech recognition.
- Converts speech input into mathematical calculations.
- Provides voice-based responses for better user interaction. Implemented speech-to-text and text-to-speech functionalities.

AI-based Document Management System (Academic Project)

- Working on an intelligent document management system with OCR and AI-based search features.
- Focused on document workflow management and user-friendly interface design.
- Exploring AI-powered document retrieval and automation concepts.

LEARNING AND DEVELOPMENT

- Currently learning Artificial Intelligence, Python, and Flask for web application development. Working on projects related to voice assistants, speech recognition.
- Interested in AI automation, frontend development, and building interactive software solutions.
